WVL2™ Wireless Vehicle Link 2

PN 129048

The WVL2™ provides unprecedented 802.11b wireless connectivity. Once installed and set up, the WVL2™ enables a technician to use a wide array of applications to perform vehicle diagnostics by means of a PC interface.

Supports all heavy-duty and automotive protocols.

- Provides up to 300 ft. of wireless freedom
- Comes with a 15 ft. USB cable (for connectivity backup)
- Solves mixed-fleet challenges with broad protocol support
- Minimizes investment in multiple brand-specific diagnostic interfaces

The WVL2™ Kit includes the following:

- WVL2™
- WVL2™ Drivers and Utilities CD
- 6-and 9-pin Deutsch Y cable
- WVL2™ Installation and Setup Manual
- WVL2™ Quick Start Guide
- Optional 802.11b wireless network card (PN 2060-010)
